

Steel Ergonomic Electric/Hydraulic Post-Crank Worker Platform 36-1/4 In. x 49-3/16 In. x 42-5/8 In. 500 Lb. Capacity Blue

MODEL POS-3648-EH

Ergonomic Solutions / Posi-Crank Worker Platforms

PRODUCT OVERVIEW

The post-crank ergonomic work station is an economical variable height worker positioned. with the use of electric hydraulic lifting system, the platform height may be adjusted to the optimum ergonomic level suitable for each operator. Benefits of the post-crank include minimizing the risk of cumulative trauma injuries, back injuries and fatigue while maximizing efficiency and operator morale. The post-crank incorporates the use of acme threaded rods for a simple yet effective height adjustment. A heavy duty chain is used in lieu of a belt to ensure a positive working height without risk of slippage. The unit is constructed of steel to provide years of service.

KEY FEATURES

- Easily adjustable height
- Incorporates the use of acme threaded rods
- Tall side rails for added safety and stability
- Deck is constructed of steel tread plate for better traction

CORE PRODUCT DATA

ASSEMBLED WEIGHT
430 lbs
