

Steel Portable Welding Screen 70"L x 70"H Yellow

MODEL PWS-7070

Facilities Maintenance / Portable Welding Screen

PRODUCT OVERVIEW

Before any sparks start flying, get yourself a welding screen. This screen provides a shield between the welding work area and the rest of the facility. And not only does it keep the sparks in a confined area, but it also limits the welding flash made available to any passersby. This is a portable model that rolls on four swivel casters, two of which include a brake.

KEY FEATURES

- 70" x 70" protective area
- 14 mil vinyl screen
- Fully RF electrically welded seams for superior tear resistance
- Bolt together design for quick set-up and knockdown
