

Steel Single Ball Hitch Attachment for Manual Winch Stacker

MODEL VWS-AA-BAH

Ergonomic Solutions / Manual & Electric Stackers

PRODUCT OVERVIEW

A single ball hitch is a durable accessory for the counter balanced powered lift. The unit as a whole is attached to the mast of the lift with a bolt and nut connection. With a unique design style, the hitch can be secured into and disconnected from the receiver with ease. An additional pin, secures the hitch into place minimizing any jostling or movement. The hitch is extended away from the mast of the unit giving much needed space when maneuvering the hitched products. Black powder coat finish for baked in added toughness.

KEY FEATURES

- Pre-drilled mounting holes
- Lightweight and simply attachable
- Robust steel construction
- Allows efficient use of existing products
